OPERATIONS MANAGEMENT

Our operations managers will work with you to provide a customized maintenance program suited to your unique needs. We'll work together to determine your requirements, and make sure they're met. In fact, our technicians are carefully selected to ensure that we keep our promise. You also have the confidence of knowing that our team members wear photo name tags and uniforms. That way you can see us coming, and you'll know it means you're getting the very best. Our office staff ensures the paper work is processed and typed efficiently. The client is proved with a detailed, fully typed Inspection report.

ANNUAL INSPECTION

We undertake Annual maintenance contract for all the fire safety equipment's / systems installed in your premises - portable fire extinguishers, Automatic Fire Alarm Systems, Water based Fire fighting systems, in this ever changing world, the decision you make about FIRE SAFETY and FIRE SAFETY ARRANGEMENTS are more critical than ever. Sometimes you cannot decide whether fire safety is your responsibility or, one of many responsibilities. With years of experience, our qualified technicians can carry out all your fire protection equipment maintenance needs and they evolved successful procedures for maintenance. We follow these inspection procedures for monthly / quarterly / Half yearly and annual wet pressure testing of fire hydrants are carried out by competent persons. We stress the importance of regular maintenance of firefighting systems.

FIRE ALARM INSPECTIONS

Test fully, each manual and automatic alarm and supervisory initiating devices and note on the report, its location, condition, operation, zone number and annunciation.

Make recommendations such as installation, relocation or replacement of devices to improve the operation of said system, or to further protect, the building and its occupants.

Reduced risks of failure of equipment when they needed most - saving your Investments and businesses.

SPRINKLER INSPECTIONS

- Perform a visual inspection of all areas covered by sprinkler system for proper coverage, head orientation, head types, temperature ratings, head conditions, pipe condition and pitching, and make any recommendations necessary.
- Test fully, the operation of all sprinkler alarm valves by performing full flows to ensure proper operation.
- Inspect the fire Department Pumper connections for any blockage, leaking, operation of connection ring and note any deficiencies.

FIRE EXTINGUISHERS AND HOSES INSPECTIONS

Check each Fire Extinguisher as per ISI, type, size, charge and date last serviced or H-Tested and noted on the report as necessary, any and all deficiencies and recommendations.

Inspect Standpipe and Hoses, note condition, date of manufacture and re-rack as required following the guideline set out as per ISI.

Inspect the Fire Department Pumper connection for any blockage, leaking, operation of connection ring and note any deficiencies.

FIRE HYDRANT SYSTEM

Test from the highest and furthest point via actual fire hose flow, the operation of the pump, it's controller and all pressure and flow switches as required, noting all discharge nozzle and gauge pressure.

MANPOWER SUPPLY

We provide hard working, qualified, young energetic, trained and qualified technicians. Providing manpower through our organization is definitely competitive among the players in this industry. We ensure the safety and security of your employees and premises involving a safe and secure working environment. Timely replacement will be provided in case of any emergency.

TRAINING

Safety procedures, First-aid, Basic firefighting and evacuation methods. Fire training to your Engineers to use and operate Fire Fighting System. We do undertake specialized job of customer's choice in the field of fire protection.

It is imperative that your company and employees know how to operate the installed fire protection system, and are prepared in the event of a fire to evacuate safely. We often provide training along with inspection or service contracts. Shield Care Co can provide training directly to your group, at your location. Depending on client's needs Shield Care Co can provide both simulated and live fire training. Keep in mind that the Occupational Safety and Health Administration require training.
